

## HOW TO SAVE WITH ENERGY EFFICIENCY

1. LED bulbs use 80% less energy and last 15 times longer. Through our Home Energy Insights program **we'll install new bulbs in your home for free.**
2. With our ENERGY STAR® rebates program, **you'll be rewarded for switching to ENERGY STAR® appliances.**
3. Get rid of that energy hog appliance. You can schedule a free pick up through the Appliance Recycling program. **We'll give you up to \$50 for participating.**
4. Building, renovating, or remodeling? Check out the New Home Energy Performance program. **You can get cash back on energy saving purchases.**
5. The average small business can reduce their energy costs by 10-30% through efficiency upgrades and behavioral changes. **Set up a free Business Energy Insight consultation to take the first step toward increased savings.**

**It's time to start saving energy and money.**

Explore **UPPCO Energy Efficiency** programs to see how you can:

- Reduce electric costs
- Improve comfort
- Decrease carbon footprint

With options available for renters, homeowners, and businesses, there's something to help everyone save.

- Rewards for appliance recycling
- Appliance replacement\*
- New construction rebates
- Multi-family property upgrades

### See what others are saying about Home Energy Efficiency:

*"I was concerned that our electric bill might jump quite a bit in the summer months but so far it has shown to be slightly less than past billings for the same time period."*

*-Karen J., Ontonagon, MI*

## Business Energy Efficiency

There's more than one way for you to save. Increasing the energy efficiency of your business can improve your bottom line.

### Small Business Energy Insights

Receive an assessment of your small business\*\* through our Business Energy Insights program. We'll visit your business, provide insight into your energy use, and install the follow (for qualified businesses):

- Lighting upgrades
- Water saving products
- Lighting controls
- Refrigerator controls
- Exit signs

### Business Energy Efficiency Program

Receive rebates for products that reduce your electric usage and your bill. Our licensed contractors will walk through your business to review your energy use and provide insights for eligible energy solutions.

\*Services & product installation will vary per home and are available on a first-come, first-served basis for eligible customers.

\*\*Small business is defined as a commercial customer with an electrical demand less than 25kW.
