

Upper Peninsula Power Company

Pre-Application for Standard Meter Opt-Out

It is important that you understand the costs and conditions of opting-out of standard metering. If you have not already done so, please call us at 906-449-2013 or 800-562-7680 before submitting the pre-application.

Eligibility:

For a residential customer to be eligible to opt-out of standard metering, the customer must have a meter that is accessible to Company employees and the customer shall have zero instances of unauthorized use, theft, fraud and/or threats of violence toward Company employees.

I understand that by opting-out, I will not receive the benefits of the standard meter, including:

- Automated meter readings, which do not require a representative to visit my home.
- Access to detailed information regarding my home's energy use and ways of reducing costs.
- Faster outage restoration.

I also agree to pay the following charges:

- A one-time fee of *\$62.25 per meter to opt out of standard metering.
- A recurring meter-reading charge of *\$14.26 per meter per month.

The undersigned hereby requests that UPPCO not install, or if already installed, remove the standard electric meter at the service address listed below and install a non-standard meter (analog or digital). Applicant understands and agrees to provide UPPCO access to the metering equipment and that the installation of a non-standard meter may cause the Applicant to incur costs for which the Applicant is solely responsible.

Customers who opt-out of standard metering must provide reasonable access to UPPCO for meter-reading and routine maintenance.

If a customer fails to provide access for two months in any 12-month period, the customer will be required to: (a) pay the company to relocate the metering equipment to an external location; or (b) permit the company to install a standard meter.

** Opt-out fees are subject to the approval of the Michigan Public Service Commission in Case No. U-20276.*

NOTICE: The actual details of the UPPCO Smart Energy™ advanced metering solution opt-out program will be determined by the Michigan Public Service Commission's rulings and approval in Case No. U-20276. This form sets forth certain details being proposed by UPPCO. Formal registration in the opt-out program will be required at the conclusion of Case No. U-20276 (anticipated in July 2019). Customers will be provided with additional details and instructions at the conclusion of Case No. U-20276.
